

ImagePerfect™ 2820-101

Clear Gloss Monomeric Laminate (FR)

ImagePerfect™ 2820-101 is a monomeric laminate with a permanent acrylic adhesive system that has been specifically designed for protecting digital prints.

ImagePerfect™ 2820-101 is a monomeric laminate that features non-migrating plasticizers and UV stabilizers that ensure maximum light fastness and good outdoor durability. It is intended for many flat applications, both interior and exterior, such as markings and decorations, window graphics and vehicle graphics. This laminate is recommended for use on IP 2511, IP 2512, IP 2513, IP 2524, IP 2524PA, IP 2525, IP 2525PA, IP 2526, IP 2526PA, IP 2527, IP 2528, IP 2529, IP 2530, IP 2531, IP 2586, IP 2588 and IP 2591. Additionally, it is also compatible with digital printing on large-format inkjet printers (eco solvent and solvent inks, as well as UV-cured and latex inks, with the exception of 3rd generation inks when used with 300 series printers). In this regard, it promotes high levels of print quality with remarkable text definition and a large colour gamut to ensure colourful images with vibrant area in-fills, facilitated by a backing paper that offers excellent layflat properties.

Specifications	
Description	Monomeric laminate
Colour	Clear gloss
Thickness	80mym
Weight	N/A
Adhesive	Acrylic, permanent
Adhesive Strength	16N/25mm (Finat TM 1/24h)
Release Paper	PE-coated silicone paper, 140g/m ²
Temperature Range	-30°C to 80°C
Durability (unprinted)	3 years
Flame Retardancy	B1
Shelf Life	2 years, 20°C / 50% humidity
